*Note: Cf Mack BNj XXXV (1966) p 79: 'The object  
which replaces the sceptre in the King's right hand on the  
obverse of these coins has been variously described but the most  
likely explanation is that it represents in miniature the  
standard which was carried into battle at Northallerton in  
August 1138 when Stephen's army, raised by Archbishop  
Thurstan of York, defeated the Scots. The standard consisted  
of a heavy mast carrying the flags of St Peter of York, St John  
of Beverley and St Wilfrith of Ripon, borne on a four-wheeled  
wagon and crowned with a silver pyx containing the Host. If  
this issue was struck to commemorate the battle, as seems likely,  
the date of issue would be late 1138 or early 1139*

*Note: Mack wrote in BNj XXXV (1966) p 93 'William  
was the eldest son of Robert, Earl of Gloucester and inherited  
his father's titles when the latter died in October 1147. Very  
little is known about him but he probably became leader of the  
Angevin party in England after Robert's death and as such, in  
the absence of Henry of Anjou in Normandy, may have struck  
coins at about this time. The types of the coins fit in with this  
period, they are all similar to those issued by Henry of Anjou,  
the same mint names also occurring*

## SALE CATALOGUES

On the average we issue twelve or more Coin Catalogues and three Naval & Military Medal Catalogues each year, some of which are usually of Sales of important Collections.

### Catalogue Subscriptions

**Sale Catalogues**, frequently illustrated, are normally posted to Subscribers about three weeks prior to the date of Sale.

**List of 'Prices Realised'** are issued after each Sale, thus giving at a glance a reliable guide to value. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading. The Lists of 'Prices Realised' will probably be enclosed in a following Sale Catalogue.
